人口論論文集 全4巻

Demography, 4-Volume Set

**Analysis and Synthesis
A Treatise in Population Studies**

本書は全4巻、100人を超える棋界第一級の研究者の寄稿による、140を超える書下ろし論文からなる、人口統計学を包括的にカバーしたレファレンスです。単なる事実や用語の解説ではなく、多角的に主題を提示することで人口論の新たな観点を喚起しています。それぞれの章では、主題を理論、手法、応用と段階的に解説、いわゆるワンストップショッピングでの情報提供を実現し、学生や人口統計学の専門家ではない研究者のアクセスも容易にしています。データ分析ツールの紹介、人口動態、対自然、経済、政治、文化など環境との関係、基本的な人口の変化（出生率、死亡率、移出入）とその生物学的、衛生学的影響、人口政策、観察法などを網羅、国際的かつ偏りのない視点で取り上げています。人口統計学をはじめ、社会学、経済学、政治学に関わる研究者及び研究機関、図書館、情報サービス産業、マーケティング関連、評価機関、政府系機関などへ広くお勧めします。

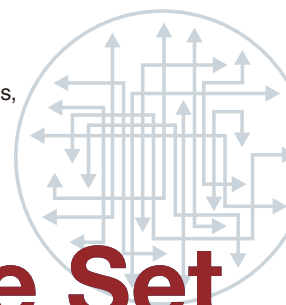

ISBN: 0-12-765660-X 装丁: Book/Hardback
ページ: 2,976 出版年: 2005年12月中旬
出版記念特価: **\$800.00** (2006年3月31日まで)
定価: **\$995.00** (2006年4月1日以降)

Editor-in-Chief

Graziella Caselli
Università degli Studi di Roma, Italy

Jacque Vallin
Institut National d'Etudes Démographiques,
Paris, France

Guillaume Wunsch
University of Louvain, Belgium

VOLUME I

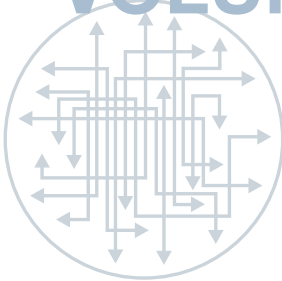

SECTION I POPULATION DYNAMICS

- Part One: Population Growth
- Part Two: The Longitudinal Approach: Description of Demographic Processes in a Birth Cohort
- Part Three: Period Analysis Revisited: The Hypothetical Cohort and Its Relations with Actual Birth Cohorts
- Part Four: A Tentative Synthesis of the Components of Dynamics: from Reproduction to
- Part Five: From Homogeneity to Heterogeneity: New Ways forward for Demographic Analysis

SECTION II DETERMINANTS OF FERTILITY

- Part One: A Precondition of Fertility: Union Formation
- Part Two: Biological and Social Factors of Fertility at the Level of Individuals and Couples
- Part Three: Socioeconomic and Cultural Factors of Fertility

VOLUME II

SECTION I DETERMINANTS OF MORTALITY

- Part One: Health, Morbidity and Causes of Death
- Part Two: Endogenous and Exogenous Mortality
- Part Three: The Intricacy of Differential Mortality Factors
- Part Four: Theories and Frameworks of Mortality

SECTION II THE DETERMINANTS OF MIGRATION

- Part One: Major Migration Streams and Theories of International Migration
- Part Two: The Principal Factors of Migration
- Part Three: Specific Approaches to Two Particular Types of Migration

VOLUME III

SECTION I POPULATION IN TIME AND SPACE: HISTORY OF POPULATION AND POPULATION FORECASTS

- Part One: The History of the Human Population
- Part Two: The Geography of Population, Diversity of Demographic Dynamics.
- Part Three: The Future of Populations: Demographic Issues and Projections for the Future

SECTION II POPULATION AND SOCIETY

- Part One: Consequences of Demographic Change
- Part Two: The Population In Its Biological, Economic, Social And Cultural Setting

VOLUME IV

SECTION I HISTORY OF POPULATION THOUGHT AND POLICIES

- Part One: History of Population Thought
- Part Two: From Fertility Control to Fertility Support
- Part Three: The Demographic Impact of Public Health Policies
- Part Four: Migration Policies and Management of the Population Pyramid
- Part Five: Country Case Studies

SECTION II OBSERVATION, AUXILIARY METHODS, TEACHING AND RESEARCH

- Part One: Observation Systems and Indirect Estimation Methods
- Part Two: Statistical Analyses, Specific Tools and Qualitative Approaches
- Part Three: History of Demographic Science, Teaching and Research
