発売中

ISBN: 978-0-12-373935-3

Pages: 3,680

2008年7月刊行

出版記念価格: US\$ 1,120.00

定価: US\$ 1,655.00

What's New!

- **Extensive coverage on AIDS and HIV**, viral immunology and vaccines, the economic importance and control of virus diseases, and the origin, history, evolution and phylogeny of viruses – **NEW!**
- **Four-color throughout** – **NEW!**
- **25% NEW articles**
- **Information on viruses of human clinical interest**, including human coronavirus SARS, human bocavirus and metapneumovirus – **NEW!**
- **The most recent information** from the 8th Report of the International Committee on Taxonomy of Viruses – **NEW!**

1999年に刊行された2版が9年ぶりに改訂されました。2005年第8回国際ウィルス分類委員会の報告を踏まえ、6,000余のウィルスを390余の属、約2,000種に分類しています。ヒト免疫不全ウィルス、免疫、ワクチン、ウィルス疾患のコントロールや経済的影響など多岐に渡る項目に加え、SARSコロナウィルス、ヒトボカウィルス、メタ肺炎ウィルスなど新しく発見されたウィルスに関する最新の研究も収録しています。

Editor-in-Chief

Dr. Brian W.J. Mahy

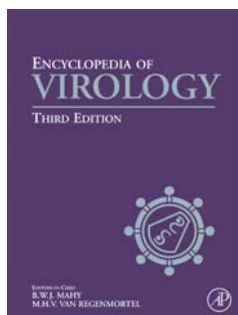

Dr. Mahy is Senior Scientific Adviser in the Office of the Director, Coordinating Center for Infectious Diseases (CCID) at the Centers for Disease Control and Prevention, and an adjunct Professor in the Department of Microbiology at Emory University.

He is the Past-President of the International Union of Microbiological Societies, a Fellow of the American Academy of Microbiology, and the Infectious Diseases Society of America. His many awards include the David Henderson Medal (CAMR, UK) and the Charles C. Shepard Science award (CDC). He is currently an Editor of three scientific journals: Emerging Infectious Diseases, Journal of Medical Virology, Reviews in Medical Virology, and is Editor in Chief of Virus Research.

Dr. Marc H.V. van Regenmortel

Dr. Marc van Regenmortel is an Emeritus Director at ESBS/CNRS (French National Center for Scientific Research) at the Biotechnology School of the University of Strasbourg in France. He is currently Editor-in-Chief of Archives of Virology and Journal of Molecular Recognition and an Executive Editor of Analytical Biochemistry. He also serves on the editorial boards of Advances in Virus Research, Journal of Immunological Methods, Methods & Expert Review of Proteomics. His honors include various honorary lectureships in the US, Italy and Switzerland, an honorary doctorate from the University of Liège, Belgium (2003) and the Leon Velluz Price of the French Academy of Sciences (2005).

Reviews from previous editions

“The organization of the work ensures constant clarity and makes research easier... This book should not be missing from any biomedical facility nor any biological institute...the availability of the online version is very welcome.”

— Drug Research

"No other source that I am aware of allows the reader to look up, in alphabetical organization, virtually any virus of animals, plants, or bacteria."

— American Society for Microbiology News

“For a long time there has been a gap in the virological literature...the Encyclopedia of Virology aims to fill this gap and does so admirably.”

— The Times Higher Education Supplement

“The Encyclopedia is user friendly...The many photographs, figures, and tables enhance the text...a valuable addition to the reference libraries of medical schools, veterinary schools, graduate schools, and hospitals.”

—New England Journal of Medicine
